# ACKNOWLEDGMENTS

Many persons participated in the various activities of the 1987 Census of Retail Trade.

The overall planning and review of the census operations were performed by the staff of the Office of the Assistant Director for Economic and Agriculture Censuses.

This report was prepared in the Business Division. **Bobby E. Russell**, Assistant Division Chief for Census Programs, was responsible for the overall planning, management, and coordination of the census of retail trade. Planning and implementation were under the direction of **Mark E. Wallace**, Chief, Retail Census Branch, with primary staff assistance by **Anne M. Sigda**, **M. Yvonne Wade**, **Charles F. Brady**, **Pamela J. Palmer**, and **Thomas G. Dassel**.

Systems and procedures for mailout, receipt, correspondence, data input, industry classification, other clerical processing, administrative record processing, and quality control, along with the associated electronic computer programs, were developed in the Economic Surveys Division, **W. Joel Richardson**, Chief.

Mailout preparation and receipt operations, clerical and analytical review activities, data keying, and geocoding review were performed by the staff of the Data Preparation Division, **Joseph S. Harris**, Chief.

Geographic coding procedures and associated computer programs were developed by the staff of the Geography Division, **Robert W. Marx**, Chief.

The computer processing systems were developed and coordinated in the Economic Programming Division, **Barry M. Cohen**, Chief. **H. Ray Dennis**, Assistant Division Chief for Business and Construction Programs, was responsible for implementation of the computer systems. The computer programs were prepared under the supervision of **William C. Wester**, Chief, Business Census Branch, assisted by **Steven G. McCraith**, **William E. Jagg**, and **Robert J. Hemmig**.

Computer processing was performed in the Computer Services Division, **Marvin D. Raines**, Chief.

Planning, design, review, and composition of report forms were performed in the Administrative Services Division, **Michael G. Garland**, Chief.

The staff of the Publications Services Division, **Walter C. Odom**, Chief, performed publication planning, design, composition, editorial review, and printing planning and procurement. **Bernadette J. Beasley** provided publication coordination and editing.

Special acknowledgment is also due the many businesses whose cooperation has contributed to the publication of these data.

If you have any questions concerning the statistics in this report, call (301) 763-7038.

# INTRODUCTION

## PURPOSE AND USES OF THE ECONOMIC CENSUSES

The economic censuses are the major source of facts about the structure and functioning of the Nation's economy. They provide essential information for government, business, industry, and the general public.

*Economic censuses furnish an important part of the framework for such composite measures as the gross national product, input-output measures, production and price indexes, and other statistical series that measure short-term changes in economic conditions.*

*Policy-making agencies of the Federal Government use the data, especially in monitoring economic activity and providing assistance to business.*

*State and local governments use the data to assess business activities and tax bases within their jurisdictions and to develop programs to attract business.*

*Trade associations study trends in their own and competing industries, and keep their members informed of market changes.*

*Individual businesses use the data to locate potential markets and to analyze their own production and sales performance relative to industry or area averages.*

## AUTHORITY AND SCOPE

Title 13 of the United States Code (sections 131, 191, and 224) directs the Census Bureau to take the economic censuses every 5 years, covering years ending in 2 and 7. The 1987 Economic Censuses consist of the—

- Census of Retail Trade
- Census of Wholesale Trade
- Census of Service Industries
- Census of Transportation
- Census of Manufactures
- Census of Mineral Industries
- Census of Construction Industries

Special programs also cover enterprise statistics and minority-owned and women-owned businesses. (The 1987 Census of Agriculture and 1987 Census of Governments are conducted separately.) The next economic censuses are scheduled to be taken in 1993 covering the year 1992.

## AVAILABILITY OF THE DATA

The results of each of the economic censuses are available in printed reports, for sale by the U.S. Government Printing Office, and on microfiche, computer tape, compact discs with read-only memory, and flexible diskettes, for sale by the Census Bureau. Order forms for all types of products are available on request from Customer Services, Census Bureau, Washington, DC 20233. A more complete description of publications being issued from this census is on the inside back cover of this document.

Census facts are also widely disseminated by trade associations, business journals, and newspapers. Volumes containing census statistics are available in most major public and college libraries. Finally, State Data Centers in every State and Business and Industry Data Centers in many States also supply economic census statistics.

## WHAT'S NEW IN 1987

Several changes have taken place for the 1987 censuses. Data will be reported on the basis of the newly revised Standard Industrial Classification (SIC) system with selected reports including "bridge tables," linking the old and new classification systems. A new set of metropolitan areas has been adopted, and more detailed information will be available for businesses with no paid employees. For additional information on these changes, review the subsequent text.

## HISTORICAL INFORMATION

The economic censuses have been taken together as an integrated program at 5-year intervals since 1967, and before that for 1963, 1958, and 1954. Prior to that time, the individual censuses were taken separately at varying intervals.

The economic censuses trace their beginnings to the 1810 Decennial Census, when questions on manufacturing were included with those for population. Coverage of economic activities was expanded for 1840 and subsequent censuses to include mining and some commercial

activities. In 1902, Congress established a permanent Census Bureau and directed that a census of manufactures be taken every 5 years. The 1905 manufactures census was the first time a census was taken apart from the regular every-10-year population census.

The first census of business was taken in 1930, covering 1929. Initially it covered retail and wholesale trade, and construction industries, but it was broadened in 1933 to include some of the service trades.

The 1954 economic censuses were the first to be fully integrated—providing comparable census data across economic sectors, using consistent time periods, concepts, definitions, classifications, and reporting units. These were the first censuses to be taken by mail, using lists of firms provided by the administrative records of other federal agencies. Since 1963, administrative records have also been used to provide basic statistics as well for very small firms, reducing or eliminating the need to send them census questionnaires. The Enterprise Statistics Program, which publishes combined data from the economic censuses, was made possible with the implementation of the integrated census program in 1954.

The range of industries covered in the economic censuses has continued to expand. The Census of Construction Industries began on a regular basis in 1967, and the scope of service industries was broadened in 1967, 1977, and 1987. The Census of Transportation began in 1963 as a set of surveys covering travel, transportation of commodities, and trucks. New for 1987 are publications reporting on business establishments engaged in several transportation industries, paralleling the data on establishments in other sectors. This is part of a gradual expansion in coverage of industries previously subjected to government regulation. The Survey of Minority-Owned Business Enterprises was first conducted as a special project in 1969 and was incorporated into the economic censuses in 1972 along with the Survey of Women-Owned Businesses.

Economic censuses have also been taken in Puerto Rico since 1909, in the Virgin Islands and Guam since 1958, and in the Northern Mariana Islands since 1982.

Statistical reports from the 1982 and earlier censuses provide historical figures for the study of long-term time series, and are available in some large libraries. All of the census data published since 1967 are still available for sale on microfiche from the Census Bureau.

## AVAILABILITY OF MORE FREQUENT ECONOMIC DATA

While the censuses provide complete enumerations every 5 years, there are many needs for more frequent data as well. The Census Bureau conducts a number of monthly, quarterly, and annual surveys, the results of which appear in publication series such as *Current Business Reports* (retail and wholesale trade and service industries), the *Annual Survey of Manufactures*, *Current Industrial Reports*, and the *Quarterly Financial Report*. Most of these surveys, while providing more frequent

observations, yield less kind-of-business and geographic detail than the censuses. The *County Business Patterns* program offers annual statistics on the number of establishments, employment, and payroll classified by industry within each county.

## SOURCES FOR MORE INFORMATION

More information about the scope, coverage, classification system, data items, and publications for each of the economic censuses and related surveys is published in the *Guide to the 1987 Economic Censuses and Related Statistics*. More information on the methodology, procedures, and history of the censuses will be published in the *History of the 1987 Economic Censuses*. Contact Customer Services for information on availability.

## CENSUS OF RETAIL TRADE

The 1987 Census of Retail Trade, part of the 1987 Economic Censuses, covered retail trade as defined in the Standard Industrial Classification (SIC) Manual.<sup>1</sup> It included all establishments primarily engaged in selling merchandise for personal or household consumption and rendering services incidental to the sale of the goods. The census excluded governmental organizations classified in the covered industries except for liquor stores operated by State and local governments. Data for direct sellers (SIC 5963) with no paid employees and post exchanges, ship stores, and similar establishments operated on military posts by agencies of the Federal Government are not included. The basic tabulations in this report do not include data for establishments which are auxiliary (primary function is providing a service, such as warehouses) to retail establishments within the same organization. Data for auxiliaries are presented in a subsequent report issued as part of the 1987 Enterprise Statistics reports.

For the 1987 Census of Retail Trade, large- and medium-size firms, plus all firms known to operate more than one establishment, were sent questionnaires to be completed and returned to the Census Bureau by mail. For most very small firms, including those with no paid employees, data from existing administrative records of other Federal agencies were used instead. These records provided basic information on location, kind of business, sales, payroll, number of employees, and legal form of organization. In addition, more detailed information for selected kinds of business was obtained on the various questionnaires.

Appendix A gives a more detailed explanation of census coverage and methodology.

## CENSUS DISCLOSURE RULES

In accordance with Federal law governing census reports, no data are published that would disclose the operations of an individual establishment or business. However, the

<sup>1</sup>Standard Industrial Classification Manual: 1987. For sale by Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Stock No. 041-001-00314-2.

number of establishments in a kind-of-business classification is not considered a disclosure, so this information may be released even though other information is withheld.

## GEOGRAPHIC AREAS COVERED

This report series presents data for the following areas:

1. The United States as a whole.
2. Each State and the District of Columbia.
3. Each consolidated metropolitan statistical area (CMSA) and primary metropolitan statistical area (PMSA) defined by the Office of Management and Budget as of June 30, 1987. A CMSA is an area used to facilitate the presentation and analysis of data for large concentrations of metropolitan populations. It includes two or more contiguous PMSA's which have a population of at least 1,000,000<sup>2</sup> and which meet specific criteria of urban character and of social and economic integration.
4. Each metropolitan statistical area (MSA) defined by the Office of Management and Budget as of June 30, 1987. An MSA is an integrated economic and social unit with a population nucleus of at least 50,000 inhabitants.<sup>2</sup> Each MSA consists of one or more counties meeting standards of metropolitan character; in New England, cities and towns rather than counties are the component geographic units.
5. The area within the State outside metropolitan statistical areas.
6. Each county or county equivalent.<sup>3 4</sup>
7. Each municipality of 2,500 inhabitants or more incorporated as a city, borough, village, or town.<sup>2 3</sup> For the economic censuses, census areas and boroughs in Alaska, boroughs in New York, and towns in New York and Wisconsin are not included in this category.
8. Special economic urban areas (SEUA's), which include townships in New Jersey and Pennsylvania and towns in New England with 10,000 inhabitants or more.<sup>2</sup>

## DOLLAR VALUES

All dollar values presented in this report are expressed in current dollars, i.e., 1987 data are expressed in 1987 dollars and 1982 data in 1982 dollars. Consequently, when making comparisons to prior years, users of the data should consider the inflation that has occurred.

<sup>2</sup>According to 1980 Census of Population or subsequent special census.

<sup>3</sup>Those defined as of January 1, 1987.

<sup>4</sup>See appendix F for Alaska, Louisiana, Maryland, Missouri, Montana, Nevada, Virginia, and District of Columbia county equivalents.

## RELIABILITY OF DATA

All data compiled in this report originated from either census questionnaires or administrative records of other Federal agencies and, therefore, are not subject to sampling errors. However, the data are subject to nonsampling errors. Nonsampling errors can be attributed to many sources: inability to identify all cases in the actual universe; definition and classification difficulties; differences in the interpretation of questions; errors in recording or coding the data obtained; and other errors of collection, response, coverage, and estimation for missing or misreported data.

The accuracy of these tabulated data is determined by the joint effects of the various nonsampling errors. No direct measurement of these effects has been obtained except for estimation for missing or misreported data; however, precautionary steps were taken in all phases of the collection, processing, and tabulation of the data in an effort to minimize the effects of nonsampling errors.

The Bureau of the Census obtains on computer tape limited information extracted from administrative records of other Federal agencies. This information is used in conjunction with other information available to the Census Bureau to develop estimates for nonemployers, small employers, and other establishments for which responses were not received in time for publication. For an indication of the extent that data included in these reports were obtained from the administrative records of other Federal agencies and from estimation, rather than reports directly from respondents, see appendix E. Also, see appendix A for a more detailed explanation of census coverage and methodology.

## SPECIAL TABULATIONS

Special tabulations of data collected in the 1987 Census of Retail Trade may be obtained, depending on availability of time and personnel, on diskette, computer tape, or in tabular form. The data will be in summary form and subject to the same rules prohibiting disclosure of confidential information (including name, address, kind of business, or other data for individual business establishments or companies) as are the regular publications.

Special tabulations are prepared on a cost basis. A request for a cost estimate, as well as exact specifications on the type and format of the data to be provided, should be directed to the Chief, Business Division, Bureau of the Census, Washington, DC 20233.

To discuss a special tabulation before submitting specifications, call 301-763-5282.

# SUMMARY OF FINDINGS

Data from the 1987 Census of Retail Trade show that the United States' 1,503,593 retail stores with payroll had sales totaling \$1.5 trillion. In 1982, 1,421,988 stores had sales of \$1.0 trillion.

For establishments with payroll in 1987, sales of grocery stores accounted for 19.1 percent of the United States' total sales by retailers compared to 21.8 percent in 1982. Other leading retail kinds of business in 1987 were new car dealers with 18.8 percent of sales, department stores (including leased departments) with 10.3 percent, gasoline service stations with 6.8 percent, and restaurants and lunchrooms with 4.4 percent.

For 1987, sales for establishments with payroll in the United States averaged \$993 thousand per establishment, compared to \$730 thousand in 1982. In 1987, department stores (including leased departments) averaged \$15.3 million per establishment; new car dealers, \$9.9 million; catalog and mail-order houses, \$2.8 million; grocery stores,

\$2.1 million; and miscellaneous general merchandise stores, \$2.0 million.

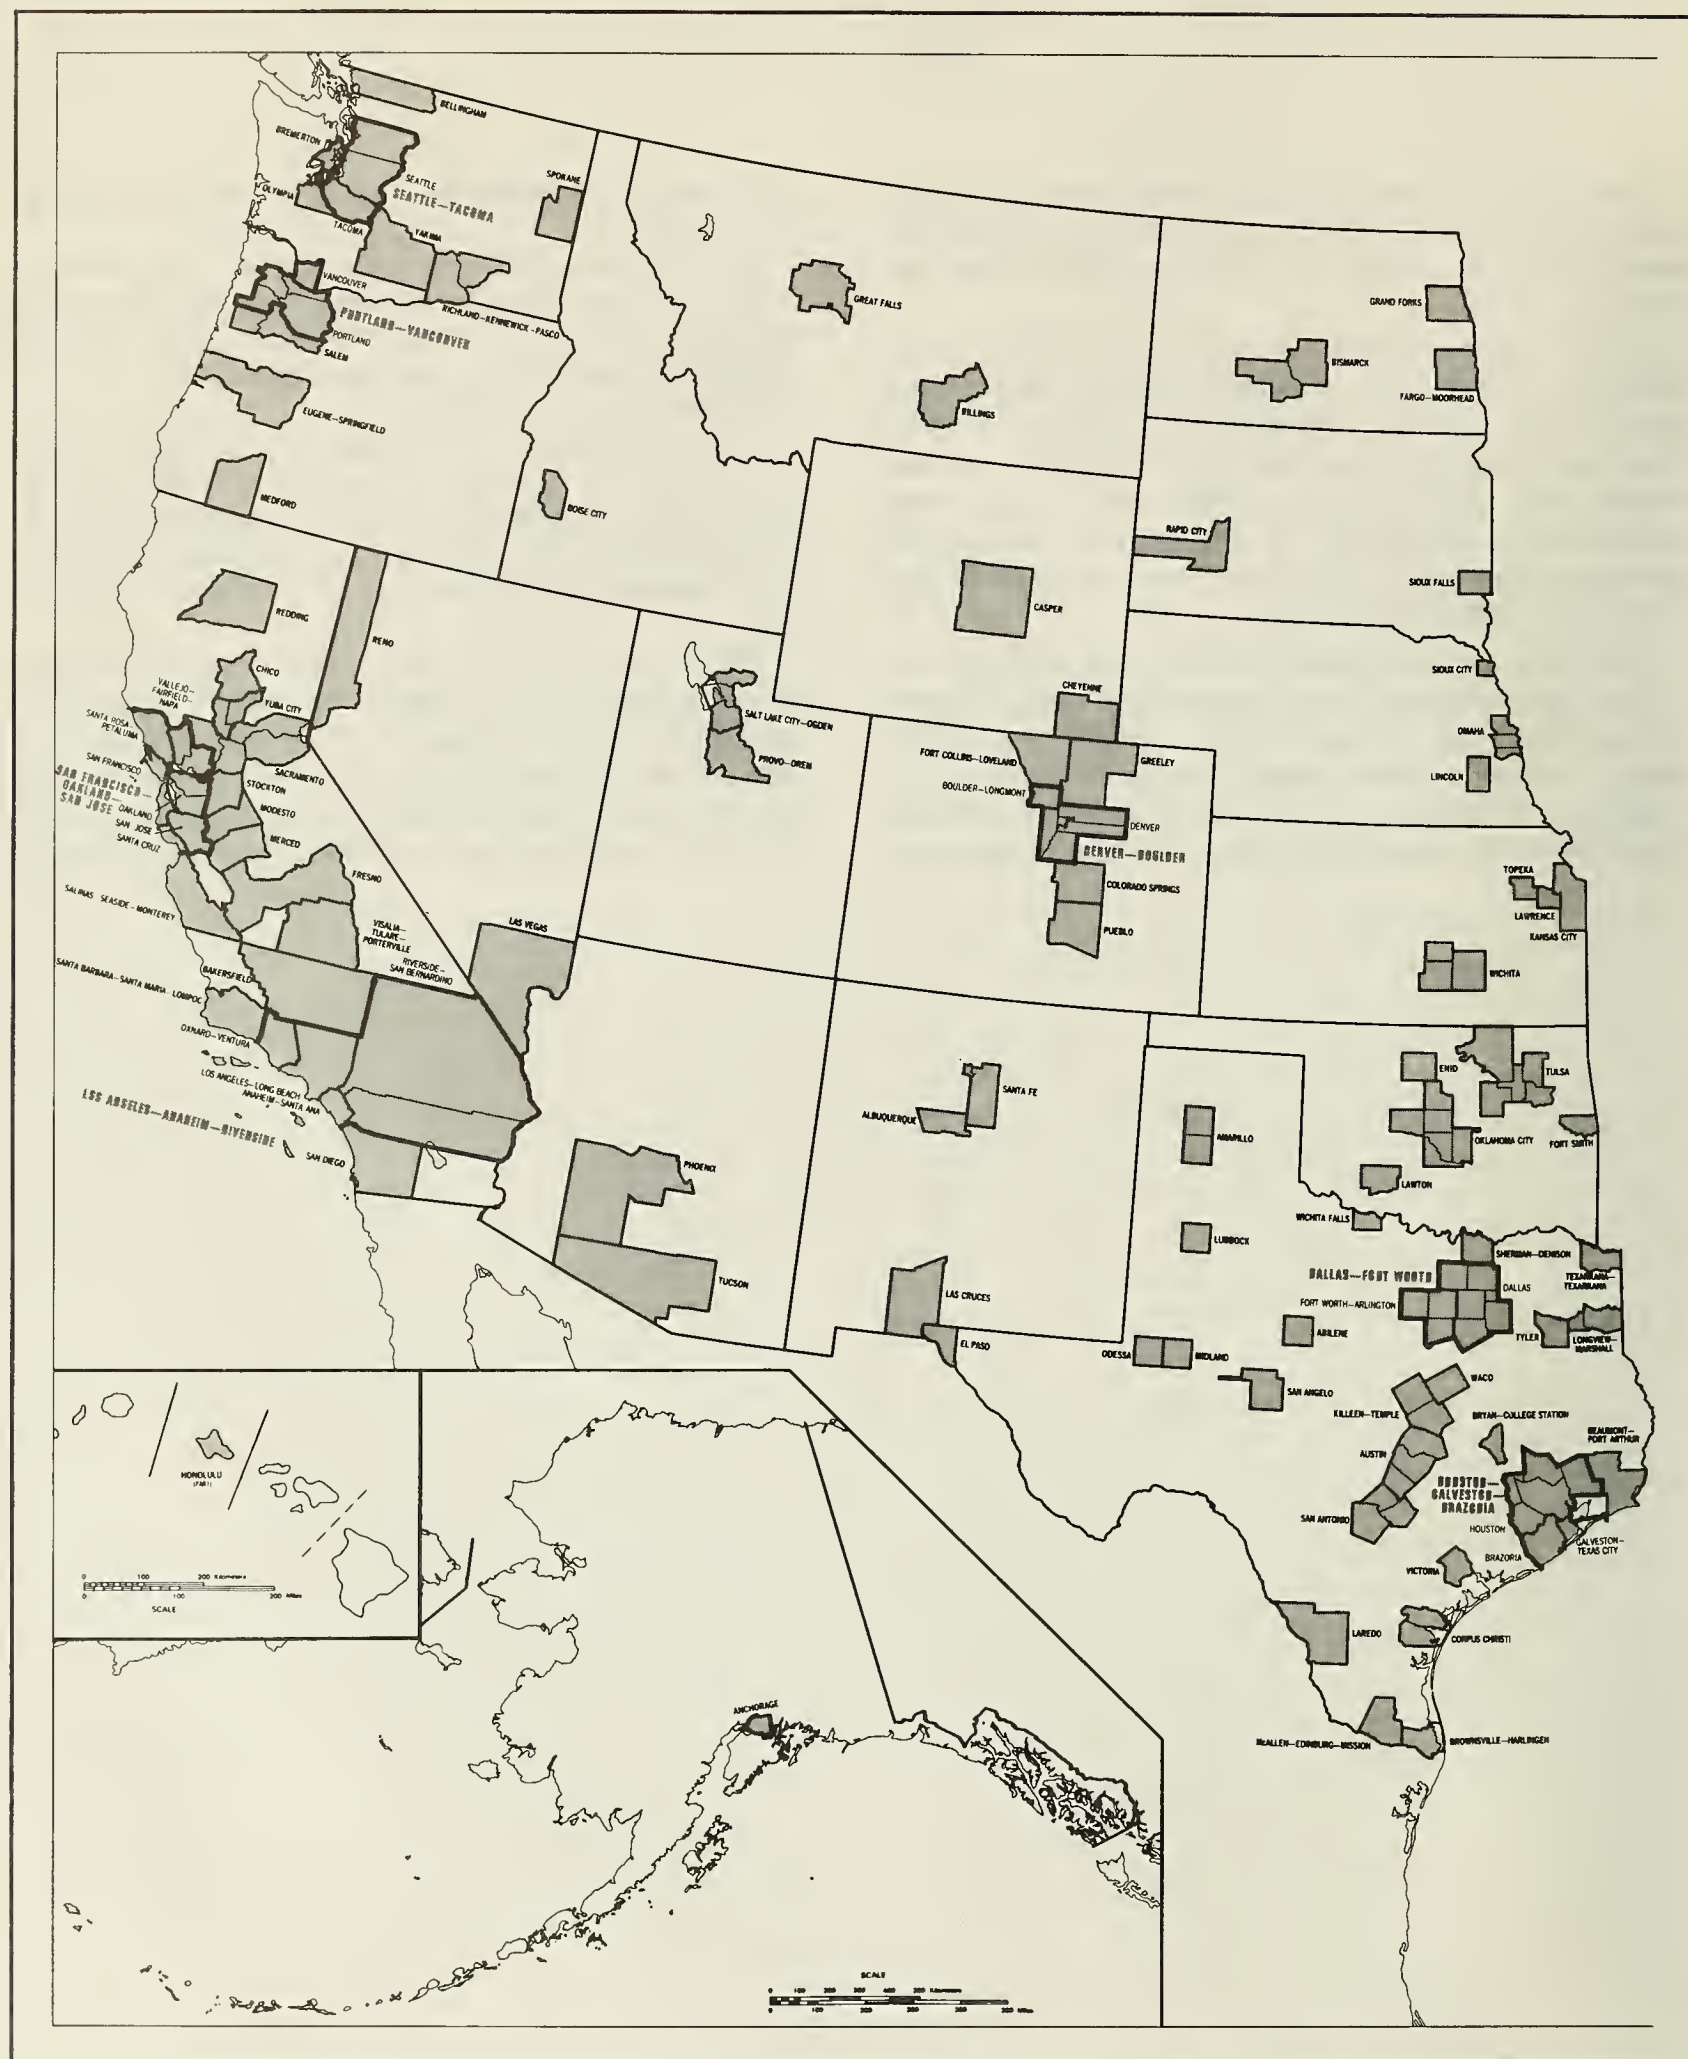

For retail establishments with payroll, 1987 sales per employee averaged \$84 thousand. New car dealers had sales per employee of \$298 thousand, which contrasts sharply with the \$24 thousand per employee average for restaurants and lunchrooms.

The 1987 payroll of retailers in the United States amounted to \$178 billion, compared to \$123 billion for 1982. Payroll as a percent of sales of establishments with payroll averaged 11.9 percent for all retailers, 28.7 percent for cafeterias, and 6.3 percent for gasoline service stations.

There were 17,779,942 paid employees (full- and part-time) engaged in retail trade in the United States as of mid-March 1987, compared to 14,448,489 employees in 1982. Restaurants and lunchrooms were the largest employers with 2,822,189 employees; followed by grocery stores, 2,502,468 employees; and refreshment places, 2,352,218.

# APPENDIX A.

## General Explanation

### CENSUS COVERAGE AND METHODOLOGY

**Structure and method of enumeration**—Firms in the 1987 Census of Retail Trade were divided into the nonmail universe and mail universe. The coverage and the method of obtaining census information from each follow:

1. The nonmail universe consists of firms which were not required to file a regular census return and includes:
  - a. All nonemployers, i.e., all firms with no paid employment during 1987. Sales information for them was obtained from administrative records of other Federal agencies. Although consisting of a large number of firms, nonemployers account for less than 3 percent of total retail sales. Data on nonemployers are provided in subsequent 1987 Census of Retail Trade reports, Nonemployer Statistics, RC87-N, and Selected Statistics, RC87-SP-1.

The census included only those retail non-employer firms which reported a sales volume of \$1,000 or more during 1987 plus firms in operation for less than the full year that reported sales which, if projected to an annual basis, would have reached a total of \$1,000 or more.

- b. Selected small employers, i.e., single-establishment firms with payroll below a specified cutoff. (The term "employers" refers to all business firms with paid employees at any time during 1987 as shown in the active administrative records of other Federal agencies.) Although the payroll cutoff varied by kind of business, small employers generally included firms with one to three employees and represented about 10 percent of total retail sales.

Data on sales, payroll, and employment for employer firms below the cutoff were derived or estimated from the administrative records of other Federal agencies, except for a 10-percent sample which was included in the mail universe.
2. The mail universe consists of firms for which information was obtained basically by means of a mail canvass and includes:
  - a. Large employers, i.e., all employer firms above the payroll size cutoff establishment to separate large from small employers. Within this category, a report of company organization is conducted periodically to identify firms which operated establishments at more than one location

and to obtain information on payroll and mid-March employment at each location. The 1986 Report of Company Organization was used as a coverage check in the census. In the census mailing package containing the appropriate 1987 questionnaires, firms were sent a form to use in updating the list of establishments with those opened since 1986.

- b. The 10-percent sample of small employers referred to in section 1b above which were sent the census mailing packages containing the appropriate 1987 questionnaires.

**Method of classifying kinds of business**—The retail trade classifications for all establishments were based on the Standard Industrial Classification (SIC) Manual.<sup>1</sup> However, the method of assigning these classifications, and the level of detail at which establishments were classified, differed between the nonmail and mail universe as follows:

1. The nonmail universe.
  - a. All nonemployers were classified inside or outside of retail trade on the basis of information obtained from other Federal agencies.
  - b. Selected small employers were classified on the basis of the most current census kind-of-business classification available from one of the Bureau's current sample surveys or the 1982 census. Otherwise, the classification was obtained from the administrative records of other Federal agencies.

If the census or administrative record classifications proved inadequate (none corresponded to a census classification in the detail required for employers), the firm was sent a brief inquiry requesting information necessary to assign a 1987 census kind-of-business code.
2. Establishments in the mail universe were classified on the basis of their self designation and answers to questions on sales by merchandise lines and other special inquiries.

### COMPARABILITY OF THE 1982 AND 1987 CENSUSES

The 1982 and 1987 censuses were conducted under similar conditions and procedures except for the following:

<sup>1</sup>Standard Industrial Classification Manual: 1987. For sale by Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Stock No. 041-001-00314-2.

**Classifications**—In 1982, classifications were based on the 1972 Standard Industrial Classification (SIC) Manual and its 1977 Supplement. For 1987, classifications are based on the 1987 SIC Manual. There are major revisions to the SIC structure for 1987 which limit the comparability of data between the 1982 and 1987 censuses. The kinds of business involving the most significant changes for retail trade are within SIC major groups 53 and 57. These changes are described in detail in the "Kind-of-Business Classifications" section below and in appendix H.

It was not possible to retabulate 1982 data based on the revised 1987 classifications for comparative purposes since, in many cases, the necessary information was not available for assigning the new 1987 classifications to the 1982 records. However, 1987 census records were assigned both a 1987 and 1982 census classification. Census data for 1987 are presented based on the 1987 classifications for all geographic areas included in this publication (see "Geographic Areas Covered" in the Introduction). In addition, data for the United States and each State are presented for both 1987 and 1982 based on the 1972 classifications in tables 3 and 4 of this publication.

**Geographic areas**—The boundaries of a number of areas for which data are shown in the 1987 census are not the same as in the 1982 census because of annexations; other boundary changes; and redefinitions of previously defined standard metropolitan statistical areas (SMSA's) and standard consolidated statistical areas (SCSA's) into metropolitan statistical areas (MSA's), primary metropolitan statistical areas (PMSA's), and consolidated metropolitan statistical areas (CMSA's).<sup>2</sup>

**Nonemployer firms**—In 1982, data for nonemployers and the combined data for all establishments were presented only at the retail total level for all geographic areas except the United States, for which these data were published by kind of business. For 1987, data presented in this publication do not include nonemployer establishments. Consequently, data in this report are included only for establishments with payroll. Data for nonemployers by kind of business for the United States are presented in the 1987 Census of Retail Trade report, Selected Statistics, RC87-SP-1 and for States, metropolitan statistical areas, counties, and places with 2,500 inhabitants or more in the Retail Trade reports of the Nonemployer Statistics Series, RC87-N-1 to -4. See appendix A of the Nonemployer Statistics

<sup>2</sup>Newly defined metropolitan statistical areas (MSA's) and also certain terminology changes were announced by the Office of Management and Budget (OMB) effective June 30, 1983. The previous term "standard metropolitan statistical area" was shortened to metropolitan statistical area. If an area has more than 1 million population and meets certain other specified requirements, it now is termed a "consolidated metropolitan statistical area" (CMSA) and consists of major components recognized as "primary metropolitan statistical areas" (PMSA's). Many of these PMSA's were formerly recognized as SMSA's and the majority were also included in standard consolidated statistical areas defined by OMB beginning in 1975, each of which consisted of two or more closely associated SMSA's. Metropolitan areas not included in CMSA's are designated simply as metropolitan statistical areas (MSA's).

Series reports for a description of improvements in data collection and processing of nonemployer records for the 1987 Economic Censuses.

**Establishments**—In 1982 and prior censuses, the count of establishments (defined below) represented the number in business at the end of the year. For 1987, the count of establishments in this publication represents those in business at any time during 1987.

A comparison of the number of establishments in business at the end of the year versus the number active any time during the year for the United States as a whole is presented in appendix G.

## EXPLANATION OF TERMS

**Establishments**—An establishment is a single physical location at which business is conducted. It is not necessarily identical with a company or enterprise, which may consist of one establishment or more. Census of retail trade figures represent a summary of reports for individual establishments rather than companies. For cases where a census report was received, separate information was obtained for each location where business was conducted. When administrative records of other Federal agencies were used instead of a census report, no information was available on the number of locations operated. Estimates of this number were derived from a sample and will be provided in the retail trade report, Miscellaneous Subjects (RC87-S-4). Each retail establishment was tabulated according to the physical location at which the business was conducted.

When two activities or more were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment. The entire establishment was classified on the basis of its major activity and all data for it were included in that classification. However, when distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted under the same ownership at a single location, and when conditions prescribed by the SIC manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were obtained in the census.

Leased departments are treated as separate establishments and are classified according to the kind of business they conduct. For example, a leased department selling shoes within a department store would be considered a separate retail establishment under the "shoe store" classification.

**Firms**—A firm is a business organization or entity consisting of one domestic establishment (location) or more under common ownership or control. All establishments of subsidiary firms are included as part of the owning or controlling firm. For the economic censuses, the terms "firm" and "company" are synonymous.

**Sales**—Sales include merchandise sold for cash or credit at retail and wholesale by establishments primarily engaged in retail trade; amounts received from customers for layaway purchases; receipts from rental or leasing of vehicles, equipment, instruments, tools, etc.; receipts for delivery, installation, maintenance, repair, alteration, storage, and other services; the total value of service contracts; and gasoline, liquor, tobacco, and other excise taxes which are paid by the manufacturer or wholesaler and passed on to the retailer.

Sales are net after deductions for refunds and allowances for merchandise returned by customers. Trade-in allowances are not deducted from total sales. Total sales do not include carrying or other credit charges; sales (or other) taxes collected from customers and forwarded to taxing authorities; commissions from vending machine operators; sales and receipts of departments or concessions operated by other firms; commissions or receipts from the sale of government lottery tickets; installment payments from leasing of vehicles, equipment, instruments, tools, etc. marketed under capital, finance, or full payout leases; and nonoperating income from such sources as investments, rental or sale of real estate, etc.

Sales in this report do not include retail sales made by manufacturers, wholesalers, service establishments, or other businesses whose primary activity is other than retail trade. They do include receipts other than from the sale of merchandise at retail, e.g., service receipts, sales to industrial users, and sales to other retailers, by establishments primarily engaged in retail trade.

**Annual payroll**—Payroll includes all forms of compensation such as salaries, wages, commissions, bonuses, vacation allowances, sick-leave pay, and the value of payments in kind (e.g., free meals and lodgings) paid during the year to all employees. Tips and gratuities received by employees from patrons and reported to employers are included. For corporations, it includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. Payroll is reported before deductions for social security, income tax, insurance, union dues, etc. This definition of payroll is the same as that used by the IRS on form 941.

**First quarter payroll**—This item consists of payroll, as defined above, paid to persons employed at any time during the quarter January to March 1987.

**Paid employees for pay period including March 12**—Paid employees consist of the full-time and part-time employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12. Included are employees on paid sick leave, paid holidays, and paid vacations; not included are proprietors and partners of unincorporated businesses. The definition of paid employees is the same as that used on IRS form 941.

**Legal form of organization**—The legal form of organization for firms in the mail universe was based on the response to the organizational status inquiry on the various census forms. The legal form of organization of nonmail firms was generally based on information available from the administrative records of other Federal agencies.

This report presents data by the following legal forms of organization:

1. Corporations (including corporate cooperatives).
2. Individual proprietorships.
3. Partnerships.
4. Other types.

**Auxiliary establishments**—Each company included in this census was asked to identify and report separately those auxiliary locations whose primary functions were to manage, administer, service, or support the activities of the other establishments of the company. Data presented in this report do not include auxiliary establishments. Data for auxiliaries which primarily service retail establishments are presented in a subsequent report issued as part of the 1987 Enterprise Statistics reports.

## KIND-OF-BUSINESS CLASSIFICATIONS

Retail trade, major groups 52 through 59 in the 1987 SIC manual, includes establishments engaged in selling merchandise for personal or household consumption and in rendering services incidental to the sale of the goods. Exceptions to this general rule are lumber yards; paint, glass, and wallpaper stores; typewriter stores; stationery stores; and gasoline service stations, which sell to both the general public for personal and household consumption and to businesses. These types of stores are included in retail trade even if a higher proportion of their sales is made to other than individuals for personal or household consumption. However, such establishments that sell their products only to institutional or industrial users and to other wholesalers and establishments that sell similar merchandise for use exclusively by business establishments are classified in wholesale trade.

Other important characteristics of retail trade establishments are that they are usually places of business; they are engaged in activities to attract the general public to buy; they buy or receive as well as sell merchandise; they may process their products, although processing is incidental or subordinate to selling; and they are considered as retail in the trade. Not all of these characteristics need be present and some are modified by trade practice.

Establishments covered by the census were assigned kind-of-business classifications according to the industry classifications defined in the 1987 SIC manual. When a more detailed classification was needed than that defined in the SIC manual, more kinds of business were identified within a SIC.

In general, retail establishments were classified according to the principal lines of commodities sold (groceries, hardware, etc.), or the usual trade designation (drug store, cigar store, etc.).

Kind-of-business classifications are not interchangeable with commodity classifications; most businesses sell several kinds of commodities. The kind-of-business code generally reflects either the individual commodity or the commodity group which is the primary source of the establishment's business. Thus, the classification of establishments by kind of business generally does not make it possible to determine either the number of establishments handling a particular commodity or the sales of that commodity. For example, the food stores classification excludes stores selling food if the sale of food is not the primary source of receipts; moreover, even though stores are classified as food stores, some of their receipts may be derived from the sale of nonfood products. (Information on the extent to which various broad groups of commodities, or merchandise lines, are sold by different kinds of business is available in the 1987 Census of Retail Trade report, Merchandise Line Sales, RC87-S-3.)

### **Building Materials and Garden Supplies Stores (SIC Major Group 52)**

This major group includes retail establishments primarily engaged in selling lumber and other building materials; paint, glass, and wallpaper; hardware; nursery stock; lawn and garden supplies; and mobile homes. It includes lumber and other building materials dealers and paint, glass, and wallpaper stores selling to the general public, even if sales to contractors account for a larger proportion of total sales; these establishments are known as retail in the trade. Establishments primarily selling these products but not selling to the general public are classified in wholesale trade.

**Lumber and other building materials dealers (SIC 521)**—Establishments primarily engaged in selling lumber, or lumber and a general line of building materials, to the general public. While these establishments may also sell to contractors, they are known as retail in the trade, even if sales to contractors account for a higher proportion of the sales. The lumber they sell may include rough and dressed lumber, flooring, molding, doors, sashes, frames, and other millwork. The building materials may include roofing, siding, shingles, wallboard, paint, brick, tile, cement, sand, gravel, and other building materials and supplies. Hardware is often an important line of retail lumber and building materials dealers. Establishments not selling to the general public or known in the trade as wholesale are classified in SIC 503.

**Paint, glass, and wallpaper stores (SIC 523)**—Establishments primarily engaged in selling paint, glass, and wallpaper, or any combination of these lines, to the general public. While these establishments may also

sell to contractors, they are known as retail in the trade, even if sales to contractors account for a higher proportion of the sales. Establishments which do not sell to the general public are classified in wholesale trade.

**Hardware stores (SIC 525)**—Establishments primarily selling a number of basic hardware lines, such as tools, builders' hardware, paint and glass, housewares and household appliances, cutlery, and roofing materials, no one of which accounts for 50 percent or more of the sales of the establishments.

**Retail nurseries, lawn and garden supply stores (SIC 526)**—Establishments primarily engaged in selling trees, shrubs, other plants, seeds, bulbs, mulches, soil conditioners, fertilizers, pesticides, garden tools, and other garden supplies to the general public. These establishments primarily sell products purchased from others, but may sell some plants which they grow themselves. Establishments primarily engaged in growing trees, shrubs, other plants, seeds, and bulbs are classified in SIC major group 01, and those growing Christmas trees are classified in SIC major group 08.

**Mobile home dealers (SIC 527)**—Establishments primarily engaged in the retail sales of new and used mobile homes, parts and equipment. Establishments primarily selling travel trailers and campers are classified in SIC 5561.

### **General Merchandise Stores (SIC Major Group 53)**

This major group includes retail stores which sell a number of lines of merchandise, such as dry goods, apparel and accessories, furniture and home furnishings, small wares, hardware, and food. The stores included in this group are known as department stores, variety stores, general merchandise stores, and general stores. Establishments primarily engaged in selling used general merchandise are classified in SIC 593, and those selling general merchandise by mail, vending machine, or direct selling are classified in SIC 596. Establishments having 25 to 49 employees and selling merchandise lines covered in the definition for department stores, previously classified in SIC 531 in prior censuses, are classified in SIC 539 in the 1987 Census.

**Department stores (SIC 531)**—Retail stores normally having 50 employees or more, having sales of apparel and soft goods combined amounting to 20 percent or more of total sales, and selling each of the three following groups of merchandise:

1. Furniture, home furnishings, appliances, and radio and TV sets.
2. A general line of apparel for the family.
3. Household linens and dry goods.

The employment and lines of merchandise sold in leased departments are both taken into account when classifying a department store.

To qualify as a department store, sales of each of the lines listed above must be less than 80 percent of total store sales. An establishment with total sales of \$10 million or more is classified as a department store even if sales of one of the merchandise lines listed above exceed the maximum percent of total sales, provided that the combined sales of the other two groups are \$1 million or more. Relatively few stores are included in this classification as a result of this special rule and most of those which are would otherwise have been classified in the apparel group (SIC major group 56).

Due to the relatively high level of leased department activity in department stores, department store sales have been separately presented for the following classifications:

Department stores (incl. leased depts.)

Department stores (excl. leased depts.)

For States and for areas with 10,000 retail establishments or more, the following subcategories of department stores (excl. leased depts.) also are presented:

**Conventional department stores (SIC 531 pt.)**—Establishments which satisfy the criteria of a department store (see above) and:

1. Usually provide check-out service and customer assistance (sales persons) within each department.
2. May have a catalog order service.
3. Are not affiliated with a company which operates similar establishments on a national basis.

These stores often sell:

1. Soft goods and hard goods which are primarily nationally advertised brands.
2. Appliances which are serviced by another company.
3. Limited lines of merchandise through seasonal or special catalogs.

**Discount or mass merchandising department stores (SIC 531 pt.)**—Establishments which satisfy the criteria of a department store (see above) and usually:

1. Convey the image of a high-volume, fast turnover outlet selling a variety of merchandise for less than conventional prices.
2. Provide centralized check-out service.
3. Do not provide customer assistance within store departments. Merchandise is normally sold through self-service with minimal assistance provided in any department.
4. Do not have a catalog order service.

These stores often sell:

1. Soft goods which are usually their own corporate brands or are unbranded.
2. Hard goods which are primarily nationally advertised brands.
3. Appliances which are serviced by another company.

**National chain department stores (SIC 531 pt.)**—Establishments which satisfy the criteria of a department store (see above) and:

1. Usually provide check-out service and customer assistance (sales persons) within each department.
2. Usually have a catalog order service.
3. Are affiliated with a company which operates similar establishments on a national basis.

These stores often sell:

1. Soft goods and hard goods which are their own corporate brands or are unbranded.
2. Appliances which are serviced by their own company.

**Variety stores (SIC 533)**—Establishments primarily engaged in the retail sale of a variety of merchandise in the low and popular price ranges. Sales usually are made on a cash-and-carry basis, with the open selling method of display and customer selection of merchandise. These stores generally do not carry a complete line of merchandise, are not departmentalized, do not carry their own charge service, and do not deliver merchandise.

**Miscellaneous general merchandise stores (SIC 539)**—Establishments primarily engaged in the retail sale of a general line of apparel, dry goods, hardware, home-ware or homefurnishings, groceries, and other lines in limited amounts. Stores selling commodities covered in the definition for department stores but normally having less than 50 employees, and stores usually known as country or general stores are included here. Also included are most catalog showrooms and establishments whose sales of apparel or furniture and homefurnishings exceed half of their total sales, providing that sales of the smaller of the two lines in combination with dry goods and household linens account for 20 percent or more of total sales. Establishments primarily engaged in the retail sales of their merchandise by catalog, mail, or television order are classified in SIC 5961.

### **Food Stores (SIC Major Group 54)**

This major group includes retail stores primarily engaged in selling food for home preparation and consumption. Establishments primarily engaged in selling prepared foods and drinks for consumption on the premises are classified in major group 58, and stores primarily engaged in selling packaged beers and liquors are classified in SIC 5921.

**Grocery stores (SIC 541)**—Establishments primarily selling (1) a wide variety of canned or frozen foods such as vegetables, fruits, and soups; (2) packaged or bulk dry groceries, such as tea, coffee, cocoa, dried fruits, spices, sugar, flour, and crackers, and (3) other processed foods and nonedible grocery items. These establishments often also sell smoked and prepared meats, fresh fish and poultry, fresh vegetables and fruits, and fresh or frozen meats. Establishments commonly known as supermarkets and convenience food stores are included if receipts from sales of groceries and food items for off-premise preparation and consumption are 50 percent or more of total sales.

**Meat and fish (seafood) markets (SIC 542)**—Establishments primarily engaged in the retail sale of fresh, frozen or cured meats, fish, shellfish, and other seafoods. They may also sell poultry, dairy products, eggs, and other commodities. Meat markets may butcher animals on their own account, or they may buy from others. This industry includes freezer and locker meat provisioners. Food locker plants primarily engaged in renting locker space for the storage of food products for individual households are classified in industry 4222. Establishments primarily engaged in the retail sale of food via frozen food plans delivered to households or individuals are classified in SIC 5963.

**Fruit and vegetable markets (SIC 543)**—Establishments primarily selling fresh fruits and fresh vegetables. They frequently also carry a limited line of grocery items. They are frequently found in public or municipal markets, or roadside stands. However, roadside stands of farmers selling only their own produce are classified in SIC major group 01.

**Candy, nut, and confectionery stores (SIC 544)**—Establishments primarily selling candy, nuts, and other confections.

**Dairy products stores (SIC 545)**—Establishments primarily engaged in the retail sale of packaged dairy products such as milk, cream, butter, cheese, and related products to over-the-counter customers. Ice cream and frozen custard stands are classified in SIC 5812 and establishments selling ice cream and similar products from trucks or wagons are classified in SIC 5963. Establishments primarily engaged in processing and distributing milk and cream are classified in SIC 2026.

**Retail bakeries (SIC 546)**—Establishments primarily engaged in the retail sale of bakery products. The products may be purchased from others or made on the premises. Establishments manufacturing bakery products for the trade are classified in SIC 2051 and those purchasing bakery products and selling them house to house are classified in SIC 5963.

**Miscellaneous food stores (SIC 549)**—Establishments primarily engaged in the retail sale of specialized foods, not elsewhere classified, such as eggs, poultry, health

foods, vitamin foods, spices, herbs, coffee, and tea. The poultry stores may sell live poultry, slaughter and clean poultry for their own account and sell dressed fowls, or sell fowls cleaned and dressed by others.

### **Automotive Dealers and Gasoline Service Stations (SIC Major Group 55)**

This major group includes retail dealers selling new and used automobiles, boats, recreational vehicles and utility trailers, and motorcycles and mopeds; dealers selling new automobile parts and accessories; and gasoline service stations selling gasoline and lubricating oils. Automobile repair shops maintained by establishments engaged in the sale of new automobiles also are included.

Utility trailer dealers, previously classified in SIC 556 in prior censuses, are classified in SIC 559 in the 1987 census.

**New car dealers (SIC 551)**—Establishments primarily engaged in the sale of new automobiles or new and used automobiles. These establishments have a franchise for the sale of new domestic and/or new imported automobiles. They frequently maintain repair departments and carry stocks of replacement parts, tires, batteries, and automotive accessories. These establishments also frequently sell pickups and vans at retail.

**Used car dealers (SIC 552)**—Establishments primarily selling used cars and not holding a franchise for the sale of new passenger cars. These establishments also frequently sell used pickups and vans at retail.

**Tire, battery, and accessory dealers (SIC 553 pt.)**—Establishments primarily selling new automobile tires, batteries, automobile seat covers, and other automotive parts and accessories.

**Other auto and home supply stores (SIC 553 pt.)**—Establishments engaged in selling a combination of lines of merchandise including tires, batteries and accessories, household appliances, radios and television sets, sporting and recreational goods, toys, housewares, and hardware, no one of which accounts for over 49 percent of total sales.

**Gasoline service stations (SIC 554)**—Establishments primarily selling gasoline and automotive lubricants. These establishments frequently sell other merchandise such as tires, batteries, accessories, and other automobile parts or perform minor repair work. Establishments called garages but deriving more than half of their receipts from the sale of gasoline and automotive lubricants are included. Gasoline stations combined with other activities, such as grocery stores, convenience stores, or car washes are classified based on primary activities as determined by sales.

**Boat dealers (SIC 555)**—Establishments primarily engaged in the retail sale of new and used motorboats and other watercraft, including parts, accessories, marine supplies, and outboard motors.

**Recreational vehicle dealers [n.e.c.] (SIC 556)**—Establishments primarily engaged in the retail sale of new and used motor homes, recreational trailers, and campers (pickup coaches), including parts and accessories. Establishments primarily engaged in the retail sale of mobile homes are classified in SIC 527, and those primarily selling utility trailers are classified in SIC 559.

**Motorcycle dealers (SIC 557)**—Establishments primarily engaged in the retail sale of new and used motorcycles, including motor scooters, mopeds, all-terrain vehicles, and parts and accessories.

**Automotive dealers, n.e.c. (SIC 559)**—Establishments primarily engaged in the retail sale of new and used automotive vehicles, utility trailers, and automotive equipment and supplies, not elsewhere classified, such as snowmobiles, dunebuggies, and go-carts. Also included are establishments primarily engaged in the retail sale of aircraft.

## **Apparel and Accessory Stores (SIC Major Group 56)**

This major group includes retail stores primarily engaged in selling clothing of all kinds and related articles for personal wear and adornment. Not included are establishments which meet the criteria for Department stores (SIC 531) or Miscellaneous general merchandise stores (SIC 539) even though most of their receipts are from the sale of apparel and apparel accessories.

1972 SIC 568, "Furriers and fur shops", has been eliminated. Establishments previously classified in SIC 568 in prior censuses are classified in SIC 563 in the 1987 census.

**Men's and boys' clothing stores (SIC 561)**—Establishments primarily selling men's and boys' ready-to-wear clothing and accessories. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise stores) account for 50 percent or more of total sales and (2) receipts from sales of all men's and boys' apparel are three or more times the receipts from sales of all women's and girls' apparel.

**Women's clothing stores (SIC 562)**—Establishments primarily selling women's and girls' ready-to-wear apparel. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise stores) account for 50 percent or more of total sales, (2) sales of all women's and girls' apparel are three or more times the sales of all men's and

boys' apparel, and (3) sales of dresses, skirts, slacks, coats, suits, and furs are two or more times greater than the sales of millinery, hosiery, underwear, blouses, handbags, and other apparel and accessories. Custom tailors primarily engaged in making women's clothing to individual order are classified in SIC 569.

**Women's accessory and specialty stores (SIC 563)**—Establishments primarily engaged in selling women's accessories and specialties, such as millinery, hats, foundation garments, lingerie, hosiery, costume jewelry, gloves, handbags, and fur, including custom made. Establishments primarily engaged in fur repair and storage and which also may sell a minor amount of fur apparel are classified in SIC 7219.

**Children's and infants' wear stores (SIC 564)**—Establishments primarily engaged in the retail sale of children's and infants' clothing, furnishings, and accessories. They may specialize in either children's or infants' wear or sell a combination of children's and infants' wear.

**Family clothing stores (SIC 565)**—Establishments primarily selling clothing, furnishings, and accessories for men, women, and children, without specializing in any one line. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise stores) account for 50 percent or more of their total sales, (2) sales of all women's and girls' apparel items are not more than three times the sales of all men's and boys' apparel items, and (3) sales of men's and boys' apparel items are not more than three times the sales of all women's and girls' apparel items.

**Men's shoe stores (SIC 566 pt.)**—Establishments primarily selling men's and boys' shoes and other footwear. Establishments selling women's and girls' and/or children's and infants' footwear are included in this classification if sales of men's and boys' footwear are more than three times the combined sales of women's, girls', children's, and infants' footwear.

**Women's shoe stores (SIC 566 pt.)**—Establishments primarily selling women's and girls' shoes and other footwear. Establishments selling men's and boys' and/or children's and infants' footwear are included in this classification if sales of women's and girls' footwear are more than three times the combined sales of men's, boys', children's, and infants' footwear.

**Children's and juveniles' shoe stores (SIC 566 pt.)**—Establishments primarily selling children's and infants' shoes and other footwear. Establishments selling men's, boys', and/or women's and girls' footwear are included in this classification if sales of children's and infants' footwear are more than three times the combined sales of men's, boys', women's, and girls' footwear.

**Family shoe stores (SIC 566 pt.)**—Establishments primarily selling both men's and women's shoes and other footwear; they may or may not sell children's shoes. Frequently, they also sell accessories such as hosiery, gloves, and handbags. Establishments are included in this classification if (1) sales of any one of the three major groupings (men's and boys' footwear, women's and girls' footwear, and children's and infants' footwear) are not more than three times the sales of the other two groups combined and (2) if children's and infants' footwear are not carried, sales of the larger of the two remaining groups are not more than three times the sales of the smaller group. Stores primarily selling athletic footwear and accessories are included here.

**Miscellaneous apparel and accessory stores (SIC 569)**—Establishments primarily engaged in the retail sale of specialized lines of apparel and accessories not elsewhere classified, such as uniforms, bathing suits, raincoats, riding apparel, sports apparel, umbrellas, wigs, and toupees. This industry also includes custom tailors primarily engaged in making and selling men's and women's clothing, except fur apparel. Establishments primarily engaged in making fur apparel to custom order are classified in SIC 563.

### **Furniture and Homefurnishings Stores (SIC Major Group 57)**

This major group includes retail stores selling goods used for furnishing the home, such as furniture, floor coverings, draperies, glass and chinaware, domestic stoves, refrigerators, and other household electric and gas appliances. Establishments selling electric and gas appliances are included in this group only if the major part of their sales consists of articles for home use. These stores also may perform repair work on household appliances, radios, televisions, and stereo equipment; but establishments primarily engaged in repair of these products are classified in SIC 76. Dealers primarily engaged in selling antique and secondhand furniture are classified in SIC 5931. Stores furnishing interior decorating service are classified according to the merchandise handled. Interior designers primarily engaged in advising clients on the selection of interior decorations are classified in SIC 7399.

1972 SIC 5732, "Radio and television stores," has been divided into two new industries for 1987: SIC 5731, "Radio, television, and electronics stores" and SIC 5734, "Computer and software stores." Also, 1972 SIC 5733, "Music stores," has been divided into two new industries for 1987: SIC 5735, "Record and prerecorded tape stores" and SIC 5736, "Musical instrument stores."

**Furniture stores (SIC 5712)**—Establishments primarily selling household furniture, beds, mattresses, springs, and other sleep equipment. Also included in this classification are establishments selling household appliances, phonographs, radios, television sets, and floor coverings, provided the receipts from sales of furniture and sleep equipment exceed those from sales of other merchandise.

**Floor covering stores (SIC 5713)**—Establishments primarily engaged in the retail sale of floor coverings. Establishments included in this industry may incidentally perform installation, but contractors primarily engaged in installing floor coverings for others are classified in SIC 1752.

**Drapery and upholstery stores (SIC 5714)**—Establishments primarily selling draperies, curtains, slipcovers, and upholstery materials. Establishments primarily selling custom-made draperies and slipcovers for household use also are included. Establishments primarily engaged in reupholstering or repairing furniture are classified in SIC 7641.

**Miscellaneous homefurnishings stores (SIC 5719)**—Establishments primarily engaged in the retail sale of miscellaneous homefurnishings, such as china, glassware, and metalware for kitchen and table use; bedding and linen; brooms and brushes; lamps and shades; mirrors and pictures; and venetian blinds and window shades. Establishments primarily engaged in the retail sale of miscellaneous homefurnishings by house-to-house canvas or by party-plan merchandising are classified in SIC 5963.

**Household appliance stores (SIC 572)**—Establishments primarily engaged in the retail sale of electric and gas refrigerators, stoves, and other household appliances, such as electric irons, percolators, hot plates, and vacuum cleaners. Many such stores also sell radios and television sets.

**Radio, television, and electronics stores (SIC 5731)**—Establishments primarily engaged in the retail sale of radios, television sets, record players, high fidelity (hi-fi) sound reproducing equipment, and other consumer electronics equipment. Such establishments also may sell additional lines such as household appliances, computers, computer peripheral equipment, software, musical instruments, or records. Establishments in this industry may perform incidental installation and repair work on radios, televisions, and other consumer electronics equipment. Establishments primarily engaged in the installation and repair of these products are classified in SIC 7622.

**Computer and software stores (SIC 5734)**—Establishments primarily engaged in the retail sale of computers, computer peripheral equipment, and software.

**Record and prerecorded tape stores (SIC 5735)**—Establishments primarily selling phonograph records and prerecorded audio and video tapes and discs. Establishments primarily engaged in the retail sale of computer software are classified in SIC 5731 and those primarily engaged in the rental of video tapes in SIC 7841.

**Musical instrument stores (SIC 5736)**—Establishments primarily selling musical instruments; such as organs, pianos, horns, stringed instruments, and percussion instruments; sheet music; and similar supplies.

## **Eating and Drinking Places (SIC Major Group 58)**

This major group includes retail establishments selling prepared food and drinks for consumption on the premises; it also includes lunch counters and refreshment stands selling prepared foods and drinks for immediate consumption.

**Restaurants and lunchrooms (SIC 5812 pt.)**—Establishments engaged in serving prepared food and beverages. Waiter/waitress service is provided and the establishments have seating facilities for at least 15 patrons. Included here are only those establishments in which waiters/waitresses take orders from patrons while the patrons are seated at a counter, booth, or table. They often serve alcoholic beverages. Establishments in which sales of alcoholic beverages for consumption on the premises exceed sales of prepared food and nonalcoholic beverages are classified as Drinking places (SIC 5813).

**Social caterers (SIC 5812 pt.)**—Establishments primarily engaged in serving prepared food and beverages for weddings, banquets, etc. at a hall or similar dedicated facility rather than at a fixed business location. Such establishments also may arrange for some entertainment, but entertainment should be a minor part of the business. (Separate data are shown only at the national level.)

**Cafeterias (SIC 5812 pt.)**—Establishments engaged in serving a wide variety of prepared food and beverages primarily through the use of a cafeteria line where customers make selections from displayed items. Some limited waiter or waitress service may be provided. Table and/or booth seating facilities are usually provided.

**Refreshment places (SIC 5812 pt.)**—Establishments primarily selling limited lines of refreshments and prepared food. Included in this group are establishments which prepare items such as chicken and hamburgers for consumption either on or near the premises or for "take-home" consumption. Such establishments do not have waiter/waitress service where the patron's order is taken while the patron is seated at a table, booth, or counter.

**Contract feeding (SIC 5812 pt.)**—Establishments primarily engaged in providing food service under contract to another company; hospital; or governmental, penal, or educational institution. (This is not a lease arrangement.) The facilities and personnel of these establishments may be provided by the contracting company, institution, etc., but the management must always be supplied by the contractor. (Separate data are shown only at the national level.)

**Ice cream and frozen custard stands (SIC 5812 pt.)**—Establishments primarily engaged in selling ice cream, frozen custard, or other frozen ices for consumption either

on or near the premises. "Take-home" packages also may be provided for ice cream sold in bulk. (Separate data are shown only at the national level.)

**Drinking places (SIC 5813)**—Establishments primarily engaged in the retail sale of alcoholic drinks such as beer, ale, wine, and liquor for consumption on the premises. The sale of food frequently accounts for a substantial portion of the receipts of these establishments.

## **Miscellaneous Retail Stores (SIC Major Group 59)**

This major group includes retail establishments not elsewhere classified. These establishments fall into the following categories: Drug stores, liquor stores, used merchandise stores, miscellaneous shopping goods stores, nonstore retailers, fuel dealers, florists, cigar stores and stands, news dealers and newsstands, and miscellaneous retail stores not elsewhere classified.

Establishments primarily selling used automobile parts and accessories, previously classified in SIC 593 in prior censuses, are classified in Wholesale Trade SIC 5015 in the 1987 census. Ice dealers, previously classified in SIC 5982, are classified in SIC 5999 in the 1987 census. And, optical goods stores, previously classified in SIC 5999, are classified in new SIC 5995 in the 1987 census.

**Drug stores (SIC 591 pt.)**—Establishments engaged in the retail sale of prescription drugs. They may carry a number of related lines such as cosmetics, toiletries, tobacco, and novelty merchandise and may operate a soda fountain or lunch counter. These stores are classified on the basis of their usual trade designation rather than on the stricter interpretation of commodities handled.

**Proprietary stores (SIC 591 pt.)**—Establishments generally selling the same merchandise as drug stores, except that prescriptions are not filled and sold.

**Liquor stores (SIC 592)**—Establishments primarily selling packaged alcoholic beverages such as ale, beer, wine, and liquor for consumption off the premises. Liquor stores operated by States, counties, and municipalities are included.

**Used merchandise stores (SIC 593)**—This industry includes stores primarily engaged in the retail sale of used merchandise, antiques, and secondhand goods such as clothing and shoes; furniture; books and rare manuscripts; musical instruments; office furniture; phonographs and phonograph records; and store fixtures and equipment. The industry also includes pawnshops. Dealers primarily engaged in selling used motor vehicles, trailers, and boats are classified in major group 55; and those primarily selling used mobile homes in SIC 5271. Establishments primarily selling used automobile parts and accessories are classified in SIC 5015 and scrap and waste dealers are classified in SIC 5093. Establishments primarily engaged in automobile repair are classified in SIC 753.

**General line sporting goods stores (SIC 5941 pt.)**—Establishments primarily selling a general line of sporting goods and equipment for hunting, camping, fishing, skiing, riding, tennis, golf, and other sports; and gymnasium and playground equipment.

**Specialty line sporting goods stores (SIC 5941 pt.)**—Establishments specializing in a maximum of four lines of sporting goods and equipment such as guns, bicycles, trophies, skiing, golfing, bowling, and billiards equipment. Establishments primarily engaged in the retail sale of athletic footwear are classified in SIC 5661.

**Book stores (SIC 5942)**—Establishments primarily selling new books and periodicals. Stationery and related items may also be sold. Book clubs (not engaged in publishing) primarily selling new books through the mail are included in mail-order houses (SIC 5961). Establishments primarily engaged in the sale of used books are classified in SIC 593.

**Stationery stores (SIC 5943)**—Establishments primarily engaged in the retail sale of stationery, such as paper and paper products (including printing and engraving), post cards, novelties, and school supplies. These establishments also may sell additional lines of office type supplies, such as accounting and legal forms; blankbooks and forms; and office forms and supplies. Establishments primarily engaged in selling office supply forms and supplies are classified in SIC 5112. Stores specializing in the sale of artists' supplies are classified in SIC 5999.

**Jewelry stores (SIC 5944)**—Establishments primarily engaged in the retail sale of any combination of the lines of jewelry, such as diamonds and other precious stones; rings, bracelets, and brooches; sterling and plated silverware; and watches and clocks. Stores primarily engaged in watch and jewelry repair are classified in SIC 7631.

**Hobby, toy, and game shops (SIC 5945)**—Establishments primarily engaged in the retail sale of toys, games, and hobby and craft kits and supplies. Establishments primarily engaged in selling artists' supplies or collectors' items, such as coins, stamps, and autographs, are classified in SIC 5999.

**Camera and photographic supply stores (SIC 5946)**—Establishments primarily engaged in the retail sale of cameras, film, and other photographic supplies and equipment. Establishments primarily engaged in finishing films are classified in SIC 7395.

**Gift, novelty, and souvenir shops (SIC 5947)**—Establishments primarily engaged in the retail sale of combined lines of gifts and novelty merchandise, souvenirs, greeting cards, holiday decorations, and miscellaneous small art goods.

**Luggage and leather goods stores (SIC 5948)**—Establishments primarily engaged in the retail sale of luggage, trunks, and leather goods, except apparel.

**Sewing, needlework, and piece goods stores (SIC 5949)**—Establishments primarily engaged in the retail sale of sewing supplies, fabrics, patterns, yarn, and other needlework accessories.

**Catalog and mail-order houses (SIC 5961)**—Establishments primarily selling merchandise as a result of orders received by catalog, mail, or television order. Customers are made aware of goods available for sale through catalogs, mailing pieces, advertisements in newspapers and magazines, and advertising on radio and television. Departmentalized retail stores normally with 50 employees or more and operated by mail-order houses and selling a general line of merchandise are classified in SIC 531. Retail stores normally with less than 50 employees and operated by mail-order houses and selling a general line of merchandise are classified in SIC 539. In some tabulations at the national level, catalog and mail-order houses are divided into subclassifications on the basis of the merchandise they sell. The subclassifications are department store merchandise, other general merchandise, and other mail-order houses. Establishments primarily engaged in mail-order sales of computer hardware and/or software and television order (home shopping) sales are included within the "Other mail-order houses" classification.

**Merchandising machine operators (SIC 5962)**—Establishments primarily engaged in the retail sale of products by automatic merchandising units (vending machines) which are generally located on the premises of other businesses. This industry does not include coin-operated service machines such as washers and dryers (SIC 7215), music machines and amusement game machines (SIC 7993), lockers and scales (SIC 7299), or insurance policies sold through vending machines (SIC 63). The "establishment" is the location from which the vending route (or routes) is serviced, not the number of vending machines or the number of business locations in which vending machines are located.

Since many automatic merchandising machine operations are conducted in conjunction with the operation of manufacturing plants and of other establishments not classified in retail trade, data for "retail" automatic merchandising machine operators should not be interpreted as a measure of total sales through automatic merchandising machines. Nor do the data for "retail" automatic merchandising machine operators include sales made through automatic merchandising machines owned by establishments classified in other kinds of retail trade.

**Direct selling establishments (SIC 5963)**—Establishments primarily selling merchandise by house-to-house canvass, by party plan, by telephone, or from trucks or wagons or other temporary locations. The "establishment" is the

location from which the canvassers operate. Canvassers who do not have any paid help are excluded from the tabulations in this report. In some tabulations at the national level, direct selling organizations are divided into subclassifications on the basis of the merchandise they sell. The subclassifications are furniture, homefurnishings and equipment; mobile food service; books and stationery; and other direct selling.

**Fuel oil dealers (SIC 5983)**—Establishments primarily engaged in the retail sale of fuel oil. Establishments primarily selling fuel oil burners are classified in SIC 5074; dealers primarily engaged in installing and servicing fuel oil burners, in SIC 1711; and fuel oil burner repair service only, in SIC 7699.

**Liquefied petroleum gas (bottled gas) dealers (SIC 5984)**—Establishments primarily engaged in the retail sale of bottled or bulk liquefied petroleum (LP) gas.

**Fuel dealers, n.e.c. (SIC 5989)**—Establishments primarily engaged in the retail sale of coal, coke, charcoal, wood, or any combination of these lines. Establishments primarily selling fuel oil are classified in SIC 5983 and those primarily selling bottled gas in SIC 5984.

**Florists (SIC 5992)**—Establishments primarily engaged in the retail sale of cut flowers and growing plants. Stores primarily engaged in the retail sale of seeds, bulbs, and nursery stock are classified in SIC 5261, and greenhouses and nurseries primarily engaged in growing seeds, bulbs, flowers, and nursery stock are classified in SIC 0181.

**Tobacco stores and stands (SIC 5993)**—Establishments primarily engaged in the retail sale of cigarettes, cigars, tobacco, and smokers' supplies. Many of the establishments included in this classification are operated as concessions in places of amusement, railway stations, airports, and other public places.

**News dealers and newsstands (SIC 5994)**—Establishments primarily engaged in the retail sale of newspapers, magazines, and other periodicals. Home delivery of newspapers by other than printers or publishers is classified in SIC 5963. Establishments engaged in delivering newspapers for subsequent home delivery are classified in SIC 4212.

**Optical goods stores (SIC 5995)**—Establishments primarily engaged in the retail sale of prescription eyeglasses and contact lenses for individuals. Offices of oculists, ophthalmologists and optometrists are classified in major group 80 even though a majority of their revenue is from the sale of eyeglass frames or prescription eyeglasses and contact lenses.

**Miscellaneous retail stores, n.e.c. (SIC 5999)**—Establishments primarily engaged in the retail sale of specialized lines of merchandise not elsewhere classified. This industry also includes establishments primarily engaged in selling a general line of their own or consigned merchandise at retail or at auction. Establishments primarily engaged in auctioning tangible personal property of others on a fee basis are classified in SIC 7399. In some tabulations, Miscellaneous retail stores are divided into subclassifications on the basis of the merchandise they sell. The subclassifications are pet shops, typewriter stores, and other retail stores.

# PUBLICATION PROGRAM

## 1987 CENSUS OF RETAIL TRADE

Publications of the 1987 Census of Retail Trade, containing data on retail establishments in the United States, are described below. Publications order forms for the specific reports may be obtained from any Department of Commerce district office or from Data User Services Division, Customer Services (Publications), Bureau of the Census, Washington, DC 20233. The first results were issued in press releases. Final detailed statistics are issued in separate paperbound reports.

### Final Reports

#### Geographic area series—52 reports (RC87-A-1 to -52)

A separate paperbound report is being published for each State, the District of Columbia, and the United States. Each report presents general statistics for establishments with payroll, on number of establishments, sales, payroll, employment, and number of proprietorships and partnerships, by varied retail classifications. All statistics are presented for the State, MSA's, counties, and places with 2,500 inhabitants or more. Greater kind-of-business detail is shown for larger areas. For each State, the District of Columbia, and the United States, 1987 data are provided by kind of business on sales and employees per establishment and sales and payroll per employee. Comparative statistics showing percent changes in sales and payroll between 1982 and 1987 are shown by kind of business.

#### Nonemployer statistics series—4 reports (RC87-N-1 to -4)

Four separate reports are being issued, each containing data for the States located in the four different regions. Data are included by kind of business on all establishments, establishments with payroll, and establishments without payroll for the United States. Also presented are statistics for establishments without payroll on number of establishments and sales by varied retail classifications for each State and, within each State, for MSA's, counties, and places with 2,500 inhabitants or more.

#### Subject series—55 reports (RC87-S-1, -2, -3 (1 to 52), and -4)

The first report (RC87-S-1) presents data based on size of establishment, size of company or firm, and legal form of organization. Establishment statistics are presented by sales size and by employment size; statistics for firms, by sales size (including concentration by largest firms), by employment size, and by number of establishments operated (single units and multiunits). Statistics are presented for establishments with payroll by kind of business on the number of establishments, sales, payroll, and employment for the United States.

A report (RC87-S-2) on measures of value produced, capital expenditures, depreciable assets, and operating expenses presents data for retail firms with payroll for the United States by major kinds of business. Data also are provided on sales, purchases, and beginning and ending inventories. Measures of

value produced include gross margin, value added, and net income produced at market prices and factor costs. Operating expenses include annual payroll, supplemental labor costs, purchased services, etc.

The merchandise line sales series (RC87-S-3 (1 to 52)) presents data on major categories of merchandise sold by retail kinds of business for each State and the District of Columbia, each MSA, and the United States as a whole. Data for States and most MSA's will be available on computerized media only. Tables present data for establishments with payroll for each kind of business and show, for each merchandise line, the number of establishments handling the line and their sales of the line; the percentage of total sales of the kind of business accounted for by each of the lines carried; and, for establishments actually handling a specific line, the percentage of their total sales represented by sales of that line. Summary statistics also are provided for the 41 broad merchandise line categories, including counts of establishments and the amount and percent of the line sold by various kinds of retail businesses.

A miscellaneous subjects report (RC87-S-4) contains special statistics on eating and drinking places, gasoline service stations and liquefied petroleum (LP) gas dealers, and other miscellaneous subjects. Data are presented for the United States as a whole and, where feasible, for States and MSA's.

#### Special report series—1 report (RC87-SP-1)

The Selected Statistics report presents selected aggregate data on retail trade, including statistics not included in the other final reports.

### Microfiche

Every final published report in the 1987 Census of Retail Trade will be available on microfiche.

### Public-Use Computer Tapes and Compact Discs

Selected data also are available on public-use computer tapes and compact discs-read only memory (CD-ROM). For the selected data, tapes and discs will provide the same information found in the final reports as well as additional information not published in the final reports, such as ZIP Code statistics, available from series RC87-Z, and Merchandise Line Sales data for States (RC87-S-3 (1 to 51)). Computerized data products are available for users who wish to summarize, rearrange, or process large amounts of data. These products, with corresponding technical documentation, are sold by Data User Services Division, Customer Services (Tapes), Bureau of the Census, Washington, DC 20233.

### OTHER ECONOMIC CENSUSES REPORTS

Data on wholesale trade, service industries, construction industries, manufactures, mineral industries, transportation, enterprise statistics, minority-owned business enterprises, and women-owned businesses also are available from the 1987 Economic Censuses. A separate series of reports covers the censuses of outlying areas—Puerto Rico, Virgin Islands of the United States, Guam, and the Northern Marianas. Separate announcements describing these reports are available free of charge from Data User Services Division, Customer Services (Publications), Bureau of the Census, Washington, DC 20233.
